SECURITY SURVEILLANCE POLICY

The Poplar Creek Public Library District, (PCPLD) uses video monitoring devices to enhance the safety and security of library users, staff, and property, while adhering to the applicable federal, state and local law concerning the confidentiality of library records, the disclosure of public records and the protection of individual privacy. The primary use of security cameras is to discourage inappropriate and illegal behavior and to enhance the opportunity to apprehend offenders. Library use is governed by the policy established by the Library Board of Trustees and any applicable rules or regulations adopted by the Library. The Executive Director as the executor of the policy for the Board of Trustees has discretion in determining what use is "in the best interest of the Library" and is authorized to act accordingly, including limiting the use of the building and services by individuals whose activities interfere with Library operations, adversely affect public safety, or cause public disturbances. The Board of Trustees may modify, amend or supplement this policy, as it deems necessary and appropriate.

PUBLIC NOTICE

The Library shall post and maintain signs giving notice of the use of security cameras for monitoring and recording activity in public areas of the Library property, including parking areas.

CAMERA LOCATION

Cameras are positioned to monitor public areas of the Library such as service areas, entrances, parking areas and areas prone to theft, vandalism, or other activities that may violate Library policy or criminal law. Cameras will not be installed in areas where members of the public and staff have a reasonable expectation of privacy, such as restrooms. When applicable, body cameras used by security personnel will adhere to PCPLD’s Security Camera Policy.

Only library staff designated by the Library Director or his designee may view real time images or screen recorded images for potential breaches of safety and security. Any inadvertent views of protected information shall be held in confidence by the library staff.

- Typically, images will not be routinely monitored in real-time, nor reviewed by library staff, except when specifically authorized by the Executive Director or other authorized employee.

• Guidelines for public disclosure of video imagery shall follow the procedures established by the Executive Director in accordance with the Library Records Confidentiality Act.

• Video records may be used to identify the person or persons responsible for Library policy violations, criminal activity, or actions considered disruptive to normal library operations.

• Video records may be used to assist law enforcement agencies in accordance with applicable state and federal laws upon receipt of a subpoena or court order or in accordance with the law. The requirement of a subpoena may, however, be waived by the Executive Director when appropriate.

• Confidentiality and privacy issues prohibit the general public from viewing security camera footage that contains personally identifying information about library users. If the Library receives a request from the general public to inspect any/all security camera footage, they will be advised to contact the appropriate law enforcement agency.
